

PROVISION AREA SYMBOLS

This is a set of symbols that are designed to support the children's understanding of the various areas of your learning environment.

Print the symbol pages in A4 and use a guillotine or scissors to cut around the black frames. Add the symbols to an A4 laminating pouch, ensuring there is space in between each, which will allow for a good seal. You may need to feed the pouch through the laminator a second time if required.

The laminated symbols should be easy to attach to walls or furniture using Blu Tack.
